Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The most relevant art of record, Benson (US 6,677,859 B1) teaches a liquid detection means having an LC circuit that includes a folded conductive element (fig. 2A-2D). Benson does not teach or suggest a network including a first LC circuit detector in a first region and a second detector in a second region, the detectors being connected by a conductive element, the detectors being capable of indicating fluid distribution, as opposed to just liquid or temperature detection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
